### Laboratory Manual for Anatomy and Physiology D C Heath & Company

Terry Martin, author of the best-selling laboratory manuals to accompany the Hole's Human Anatomy & Physiology texts, has written a stand alone laboratory manual. This series of laboratory manuals (main - no dissection, cat dissection, fetal pig dissection, and rat dissection) will incorporate Terry's clear, concise writing style. These manuals are not associated with any one text and were created for use with any anatomy and physiology text. The manuals also feature incredible artwork and photos. It can be packaged with Ph.I.L.S. 4.0.

*Human Anatomy & Physiology Laboratory Manual, Main Version* Jones & Bartlett Learning  
Laboratory Manual for Exercise Physiology, Second Edition, provides guided opportunities for students to translate their scientific understanding of exercise physiology into practical applications.

### **Exploring Zoology: A Laboratory Guide** Mosby Incorporated

This is a lab manual for a college-level human anatomy course. Mastery of anatomy requires a fair amount of memorization and recall skills. The activities in this manual encourage students to engage with new vocabulary in many ways, including grouping key terms, matching terms to structures, recalling definitions, and written exercises. Most of the activities in this manual utilize anatomical models, and several dissections of animal tissues and histological examinations are also included. Each unit includes both pre- and post-lab questions and six lab exercises designed for a classroom where students move from station to station. The vocabulary terms used in each unit are listed at the end of the manual and serve as a checklist for practicals.
