"The Social Network meets The Wolf of Wall Street in The Underwriting, as it takes you behind closed doors into a post-recession world of sex scandals, power plays, and underhanded dealings. Todd Kent is young, hot, and on his way to the top of Wall Street when the eccentric founder of Hook, the popular new dating app, handpicks him to lead its IPO. Given just two months to pull it off, Todd and his investment banking team--brainy Neha, party-boy Beau, and old college flame Tara Taylor--race to close the \$14 billion deal of the decade. It's the chance of a lifetime for Tara, too, who sees her opportunity to break through the glass ceiling and justify six years of sacrifices for her career. But nothing is what it seems in Silicon Valley, and when tragedy strikes Stanford

This collection brings together recent innovative work in applied and practicing anthropology. Organised around the theme of unexpectedness, it examines some of the novel spaces, topics, and methods that anthropologists are involved with. The volume emphasises non-traditional settings and demonstrates the important role of anthropology in addressing some of the pressing issues facing society today. The contributors offer detailed ethnographic examples from their own research and work that give students valuable insight and advice. Drawn mainly from the United States, the case studies illustrate the diverse arenas in which anthropologists operate, from law and finance to education and health care. Simultaneous consideration is given to practical applications, theoretical reflections, and professional experiences.

The Book Whisperer Simon and Schuster

We desire to know our lives matter, and we live in a world that craves more, but what is more? We're bombarded with messages about what more looks like and how we can successfully live a life of being made for more. Perfection is a constant measure of success, and we manipulate plans

so we feel like we are making an impact. In the end, we are empty and exhausted. Author Lauren Elizabeth Miller has lived this and felt this on a deep level. She's walked through the emptiness and exhaustion that stems from trying to be perfect and never fail. She's also felt the redemption and restoration that only God can provide. In *Made for More*, Miller shares her life story and the freedom and redemption she found through complete surrender to God's plan for her life. She tells how obedience matters more than any outcome and that being made for more is simply living a life that stems from God's grace. When we understand this, it changes everything.

Fiction. Mary Miller's BIG WORLD is the second book and first work of fiction to come out of Short Flight/Long Drive Books, a publishing arm of the independent literary journal Hobart. The characters in Mary Miller's debut short story collection BIG WORLD are at once autonomous and lonesome, possessing both a longing to connect with those around them and a cynicism regarding their ability to do so, whether they're holed up in a motel room in Pigeon Forge with an air gun shooting boyfriend as in "Fast Trains" or navigating the rooms of their house with their dad after their mother's death as in "Leak." Mary Miller's writing is unapologetically honest and efficient and the gut-wrenching directness of her prose is reminiscent of Mary Gaitskill and Courtney Eldridge, if Gaitskill's and Eldridge's stories were set in the south and reeked of spilt beer and cigarette smoke.

[Valley of Giants](#) Harper Collins

"A bold and subversive retelling of the goddess's story," this #1 New York Times bestseller is "both epic and intimate in its scope, recasting the most infamous female figure from the Odyssey as a hero in her own right" (Alexandra Alter, The New York Times). In the house of Helios, god of the sun and mightiest of the Titans, a daughter is born. But Circe is a strange child -- not powerful, like her father, nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power -- the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. Threatened, Zeus banishes her to a deserted island, where she hones her occult craft, tames wild beasts and crosses paths with many of the most famous figures in all of mythology, including the Minotaur, Daedalus and his doomed son Icarus, the murderous Medea, and, of course, wily Odysseus. But there is danger, too, for a woman who stands alone, and Circe unwittingly draws the wrath of both men and gods, ultimately finding herself pitted against one of the most terrifying and vengeful of the Olympians. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from, or the mortals she has come to love. With unforgettably vivid characters, mesmerizing language, and page-turning suspense, Circe is a triumph of storytelling, an intoxicating epic of family rivalry, palace intrigue, love and loss, as well as a celebration of indomitable female strength in a man's world. #1 New York Times Bestseller -- named one of the Best Books of the Year by NPR, the Washington Post, People, Time, Amazon, Entertainment Weekly, Bustle, Newsweek, the A.V. From #1 New York Times bestselling author Stephen King whose "storytelling transcends genre" (Newsday) comes "another winner: creepy and touching and horrifyingly believable" (The Boston Globe) about a group of kids confronting evil. In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis's parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents—telekinesis and telepathy—who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and ten-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, "like the roach motel," Kalisha says. "You check in, but you don't check out." In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from the Institute. As psychically terrifying as Firestarter, and with the spectacular kid power of It, The Institute is "first-rate entertainment that has something important to say. We all need to listen" (The Washington Post). [Beautiful](#) WestBow Press

A darkly witty mystery set at a New England prep school: "Part Dead Poets Society. Part Heathers. Entirely addictive" (Glamour). "Do you know what it took for Socrates' enemies to make him stop pursuing the truth?" "Hemlock." The fiercely competitive Mariana Academy was founded with a serious honor code; its reputation has been unsullied for decades. But now, a long-dormant secret society called Prismo's Party seems to have reemerged, threatening the school's placid halls with vigilante justice, exposing students and teachers alike for even the most minor infraction. Iris Dupont, a budding journalist whose only confidant is the chain-smoking specter of Edward R. Murrow, feels sure she can break into the ranks of the Devil's Advocate, the Party's underground newspaper, and there uncover the source of its blackmail schemes and vilifying rumors. Some involve the school's new science teacher, who also seems to be investigating the Party. Others point to an albino student who left school abruptly ten years before, never to return. And everything connects to a rare book called Marvelous Species. But the truth comes with its own dangers, and Iris is torn between her allegiances, her reporter's instinct, and her own troubled past, in this "darkly comic romp" filled with double-crosses and deeply buried secrets (The Washington Post).
