**Bing** Gizmo Student Exploration Pulley Answers Use a pulley system to lift a heavy weight to a certain height. Measure the force required to lift the weight using up to three fixed and three movable pulleys. The weight to be lifted and the efficiency of

the pulley system can be adjusted, and the height of the weight and the total input distance are reported. Pulley Lab Gizmo : Lesson Info : Explore Learning Explore Learning ® is a Charlottesville, VA based company that develops online solutions to improve student learning in math and science..
