It follows the story of a man who settles and lives in rural Norway. First published in 1917, it has since been translated from Norwegian into languages such as English. The novel was written in the popular style of Norwegian new realism, a movement dominating the early 20th century. The novel exemplified Hamsun's aversion to modernity and inclination towards primitivism and the agrarian lifestyle. Growth of the Soil - Wikipedia "The Growth of the Soil" is the novel by Norwegian writer Knut Hamsun which won him the Nobel Prize in Literature in 1920. Stylistically it has a simplicity which reflects its subject matter and there prevails what Worster calls a "Miltonic monumental calm". Amazon.com: Growth Of The Soil (9781440414220): Hamsun ... Peasant characters simply trying to live life in the Norwegian backcountry learn to face tragedy and evil, without experiencing absolute disaster, in Knut Hamsun's Growth of the Soil. Thanks in part to a simplistic writing style and calm, almost detached third-person point-of-view, Hamsun blends misery and misfortune with tenderness, wisdom, and even humor.
